Overview of Al Rajhi Bank 4

Our Approach to ESG 4

This document marks the second Allocation and Impact Report issued by Al Rajhi Bank ("Al Rajhi" or "the Bank") under our Sustainable Finance Framework ("the Framework"), which was published in February 2022, following our inaugural report in 2023.

Having first tapped sustainable capital markets in September 2022, Al Rajhi Bank has continued to champion sustainable finance, most recently with the issuance of our first USD-denominated AT1 Sukuk in January 2025, following successful sustainable finance issuances in both 2023 and 2024.

These issuances have established Al Rajhi Bank as the largest bank funder in ESG format in Sukuk markets globally and support the bank in attracting a geographically diverse set of investors.

This report provides details regarding the allocation of the proceeds of sustainable financing instruments issued under the Framework and the impact of projects benefitting from these allocations, as of 31 December 2024.

### Overview of Al Rajhi Bank

Founded in 1957, Al Rajhi Bank is one of the largest banks in the world by market cap and the largest in the Middle East and Saudi Arabia, with total assets of SAR 801 billion, a paid-up capital of SAR 40 billion (US\$ 10.66 billion), and an employee base of around 20,000+ associates.

With over 60 years of experience in banking and trading activities, the various individual establishments under the Al Rajhi name were merged into the umbrella 'Al Rajhi Trading and Exchange Corporation' in 1978 and it was in 1988 that the bank was established as a Saudi Joint Stock Company under the name of Al Rajhi Banking and Investment Corporation, which later in 2006 was named as Al Rajhi Bank.

Al Rajhi Bank has a well-established base in Saudi Arabia through a wide network that includes more than 511 branches, more than 4,603 ATMs, more than 585,000 points of sale with merchants, and the largest customer base of any bank in Saudi Arabia, in addition to 159 remittance centers throughout the country.

### **Our Approach to Sustainable Financing**

Islamic banking continues to remain compatible with evolving ESG considerations and the broader objectives of sustainable finance, and consequently, with over five decades of strong Sharia-compliant operations, environmental, social and governance priorities have become an integral part of Al Rajhi Bank's very foundations.

Al Rajhi Bank has remained committed to providing Shariah-compliant, future-ready banking services, and this Shariah-based ESG orientation continues to protect the Bank from investments that are at 'high risk' of failing to meet ESG criteria.

Overview of Al Rajhi Bank
Our Approach to ESG

5

By principle, Al Rajhi Bank does not participate in any investments that fail to meet Shariah guidelines, including investments in alcohol, gambling and tobacco products.

Al Rajhi Bank's approach to sustainable finance is based in Shariah-led Islamic principles, with social responsibility at its core.

Furthermore, in line with its ESG strategy, the Saudi Vision 2030 and the King Salman Renewable Energy Initiative, the Bank has played a key role in financing solar projects under the Kingdom's Renewable Energy Project Development Office (REPDO).

By financing these projects, the Bank contributes towards providing economic stability, diversification of energy

sources and fulfils the Kingdom's commitments to lower its carbon footprint.

Our ultimate goal is to satisfy the needs of all stakeholder groups including customers, employees, society and the environment through four ESG pillars:

| Supporting Vision 2023 & KSA Net Zero  Creating A Digital Future                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |                                                                | Conducting Responsible Business with Good Governance         | Fostering Ties with Communities                                                |  |

Overview of Al Rajhi Bank
Our Approach to ESG

6

The first pillar signifies Al Rajhi Bank's continued commitment as a leader in the financial sector to realise Saudi Arabia's Vision 2030 objectives by supporting the development and diversification of the Saudi economy. This includes the Bank's increased focus on the private sector and SMEs to improve their contribution to the GDP and its expanding product and service portfolio to increase Saudi home ownership, among other Vision 2030 targets.

The Bank's focus on financing both public and private sector investments in Sustainable energy projects to achieve the Saudi Arabia's net zero objectives, alongside its own investments in renewable energy and resource conservation, is also highlighted as an element of this pillar. The Bank's continued investments in creating a digital future supported by the best-in-class technology and infrastructure is emphasised via the Bank's second ESG pillar. In Al Rajhi Bank's drive towards financial inclusion through digital transformation, the Bank has achieved an unrivalled industry standing as a digital leader in customer insight as well as in nurturing future ready digital talent.

As a Sharia-compliant financial institution, Al Rajhi Bank demonstrates exemplary financial conduct and good

governance, which is reflected through the third ESG pillar. The Bank's unrelenting efforts to deliver the best customer experience in Saudi Arabia coupled with fair treatment and the utmost safety and security falls under this pillar, supported by benchmarked good governance practices. The Bank's wide-ranging social development initiatives fall under the fourth ESG pillar – fostering ties with communities. Al Rajhi Bank continues to earn its social license to operate across Saudi Arabia by enabling financial access, volunteering and giving back to the community, and empowering underserved segments – with special focus on female empowerment – through employment opportunities and financial independence.

# Sustainable Finance Framework

### **Sustainable Finance Framework**

Sustainable Finance Framework Eligible Sustainable Projects

Al Rajhi Bank published its Sustainable Finance Framework in February 2022 as the basis to issue Sustainable, Social, or Sustainability Bonds, Sukuk, Loans, and other debt instruments ("Sustainable Financing Instruments"), which will fund eligible sustainable projects that conform with:

- The International Capital Market Association ("ICMA") Sustainable Bond Principles ("GBPs") 2021, Social Bond Principles ("SBPs") 2021, and Sustainable Bond Guidelines ("SBGs") 2021 and/or;
- The Loan Market Association ("LMA") Sustainable Loan Principles ("GLPs") 2021 and Social Loan Principles ("SLPs") 2021.

The GBPs, SBPs, SBGs, GLPs, and SLPs may be referred to collectively throughout the remainder of this document as "the Principles".

In conforming with the Principles, the Framework is aligned to their four core components:

Use of Proceeds: Al Rajhi Bank will allocate an amount at least equivalent to the net proceeds of the Sustainable Financing Instruments issued under this Framework to finance and/or re-finance, in whole or in part, sustainable projects which meet the eligibility criteria of the eligible sustainable project categories defined in the Framework ("Eligible Sustainable Projects").

A maximum 3-year look-back period would apply for

refinanced projects and Al Rajhi Bank expects each issuance under this framework to be fully allocated within 2 years from the date of issuance.

Process for Project Evaluation and Selection: The Project Evaluation and Selection Process will ensure that the proceeds of any Sustainable Financing Instrument are allocated to finance or refinance Eligible Sustainable Projects.

Management of Proceeds: The proceeds of each Al Rajhi Bank's Sustainable Financing Instrument will be deposited in Al Rajhi Bank's general funding accounts and earmarked for allocation towards the Eligible Sustainable Projects using the Sustainable Finance Register.

Any proceeds temporarily unallocated will be invested according to the Bank's standard liquidity policy in cash or cash equivalents.

Reporting: On an annual basis, Al Rajhi Bank will publish an allocation report and an impact report on its Eligible Sustainable Projects. This reporting will be updated annually until full allocation of the net proceeds of any Sustainable Financing Instrument issued, or until the Sustainable Financing Instrument is no longer outstanding.

Additionally, in alignment with the recommendations of the Principles, the Bank intends to engage a third-party reviewer to provide an annual assessment on the alignment of the allocation of funds with the Framework's criteria.

| Total                                                        | 674                       | 8.7%                              |  |

| Allocated Eligible Social Asset Portfolio by Category | Eligible Amount (US\$ mn) | % of Allocated Eligible Portfolio |  |
|-------------------------------------------------------|---------------------------|-----------------------------------|--|
| Affordable Housing                                    | 7,072                     | 91.3%                             |  |
| Total                                                 | 7,072                     | 91.3%                             |  |

| Allocated Eligible Sustainable Asset Portfolio by Category      |               |
|-----------------------------------------------------------------|---------------|
| Total Sustainable Liabilities                                   | US\$ 7,746 mn |
| Total Sustainable Assets                                        | US\$ 7,746 mn |
| Outstanding Sustainable Financing Instrument Proceeds Allocated | 100%          |

Note: Al Rajhi Bank reports the allocation to Eligible Sustainable Projects on a portfolio basis. Hence, the values presented in the report can be considered as an update against the values presented in Al Rajhi Bank's Allocation and Impact Report 2024, which was published in April 2024.

For the Renewable Energy, Energy Efficiency, and Sustainable Water and Wastewater Management categories, the Eligible Asset Portfolio references a similar list of projects to that presented in 2024, with increases in values being attributable to an increased utilization of available credit facilities and the inclusion of project-specific working capital facilities. A new project has been added in the Clean Transportation category, for which there were no allocations in the prior report. The Affordable Housing category refers to the same project as in the prior report, where Al Rajhi Bank has increased the size of the allocation to this category, on the basis of available eligible disbursements.

No projects have been removed from Al Rajhi Bank's Allocated Eligible Asset Portfolio since the prior report.

Process for Project Evaluation and Selection

### **Process for Project Evaluation and Selection**

Sustainable Finance Working Group

### **Sustainable Finance Working Group**

Al Rajhi Bank's Sustainable Finance Working Group (the "SFWG") is responsible for governing and implementing the initiatives set out in the Sustainable Finance Framework. The SFWG comprises of several members of the Bank's senior leadership.

The SFWG is chaired by the Chief Financial Officer (CFO), and comprises the Chief Risk Officer (CRO), the General Managers of both B2B and B2C business verticals, and the Group Treasurer.

The Group's responsibilities entail the following:

- Meet at least twice each year, with meetings distributed evenly throughout the year
- Ensure that the approval of Eligible Sustainable Projects will follow the Bank's existing loan approval processes
- Ratify eligible Sustainable Projects that have been proposed by the constituent Group members
- Ensure that all Eligible Sustainable projects have been assessed from an environmental and social risk management perspective, in

- line with Al Rajhi Bank's existing risk management framework
- Undertake regular monitoring of all projects to ensure the eligibility of Sustainable Projects with the criteria set out below, whilst replacing any ineligible Sustainable Projects with new eligible Sustainable Projects
- Facilitate regular reporting on any Sustainable issuance in alignment with the Bank's Reporting commitments
- Review and update the Framework regularly

# Impact Assessment Methodology Note

### **Impact Assessment Methodology Note**

Impact Assessment Methodology Note

Al Rajhi Bank intends to report the expected or actual quantitative environmental and social impact of the Eligible Sustainability Projects it finances or co-finances through its Sustainable Financing Instruments, with reference to the ICMA Harmonised Framework for Impact Reporting (2023).

The reporting includes the reduction or avoidance of greenhouse gases estimated to have occurred, attributable to these Eligible Sustainable Projects. Al Rajhi Bank also evaluates other indicators that are appropriate to report for environmental and social impact and performance, such as energy generation figures by type of technology and number of affordable mortgage subsidy beneficiaries. This impact assessment has been carried out by the Carbon Trust, a leading, independent impact consultant.

Al Rajhi Bank undertakes to report the environmental and social impact of projects it finances or co-finances through its Sustainable Finance Instruments based, where possible, on the actual environmental and social performance of the asset. Where this is not possible, expected performance is used. The reporting includes social indicators, green indicators, and the resulting emissions reductions or avoidance, all of which require assumptions and calculations. The reporting is based on the net benefit resulting from the asset in a given period of operation, rather than the gross emissions change before or after the life of the asset or project.

In accordance with the principles of reporting described above, Al Rajhi has and continues to commit to transparent disclosure of any assumptions and estimations used in the calculation of its reporting framework.

Breakdowns of expected environmental impacts are also provided for two types of projects:

1. 'Operational' projects, defined as those that are already in operation and delivering real time impact; and

2. **'Under Construction' projects**, which are projects that are in the development and/or construction phase. In this case, the resulting impact performance provided is a forward looking indicator.

The full assessment methodology for all categories and projects can be found in the Al Rajhi Bank Sustainable Finance Impact Assessment 2025 document, which is available on Al Rajhi Bank's website.

| Technology        | Project Location | Number of | Allocation Amount |
|-------------------|------------------|-----------|-------------------|
| Type              |                  | Projects  | (US\$ mn)         |
| Electric Vehicles | Saudi Arabia     | 1         | 53                |

**Note:** Impact for this project is yet to be assessed as it is still in the early stages of development, and hence was not included in the scope of Carbon Trust's impact assessment.

### **Affordable Housing**

### Impact Attributable to Al Rajhi Bank's Sustainable Finance Instruments

| Project<br>Type    | Allocation Amount<br>(US\$ mn) | Number of Housing Units<br>Constructed | Number of Individuals<br>Benefitting from Affordable<br>Housing |
|--------------------|--------------------------------|----------------------------------------|-----------------------------------------------------------------|
| Affordable Housing | 7,072                          | 35,659                                 | 89,147                                                          |

**Note:** Please note that in determining the number of loan applications (i.e., number of housing units constructed), Al Rajhi Bank has used an average loan application size of about SAR 750,000, and an approximate average of 2.5 individual beneficiaries per loan application.

### **Case Studies**

### **Case Studies**

Case Studies 4

### **Red Sea Utilities**

The Project bundles the infrastructure development of utilities components including wastewater treatment, water desalination, district cooling and solid waste treatment, which will rely entirely on renewable energy also generated within the utilities infrastructure, to power the long-term operations of The Red Sea Development Company's tourism/hospitality assets.

### Projects included in Sustainable Financing Instrument Allocation

- 340 MW Photovoltaic Solar Power Generation Facility with co-located 240 MWe Battery Energy Storage System
- 110 MW Biodiesel-fuelled Power Plant
- 100,000 m³/day Independent Sewage Treatment Plant
- 18,315 m³/day Wastewater Treatment Plant
- 32,500 m³/day Desalination Plant
- 32,500 RT District Cooling Facility

### **Affordable Housing**

### **Description**

The Bank has continued to work closely with the Real Estate Development Fund and the Ministry of Housing in its efforts to increase affordable home ownership for Saudi Nationals. This contributes towards Vision 2030's goals to increase home ownership to 70% by 2030.

Programs under the Real Estate Development Fund and Ministry of Housing would provide a monthly subsidy up to SAR 500,000 that covers funding profits at a minimum rate of 35% and a maximum rate of 100% based on income thresholds. Eligibility criteria includes first time home buyers only and the program also guarantees borrowers with salaries under SAR 5,000 and segments including About to Retire customers to ensure affordability.
